Pioneer In Steel Design & Contracting

BUILDING A SAFE & STRONG INDIA WITH
STEEL & VISION FOR 20 + YEARS

FRAME TECH
FRAMING TECHNOLOGIES...

PIONEER IN STEEL DESIGN & CONTRACTING

At Frametech, we are dedicated to excellence in the design, fabrication, and erection of specialized steel structures, including spaceframes, PEB (Pre-Engineered Buildings), tensile architectures, and fabricated tile roofs.

Led by an experienced management team, qualified project managers, engineers, and skilled supervisors, our projects are a testament to our commitment to quality. We take pride in our turnkey project management services, encompassing scheduling, design, and execution. Our expertise extends to Pre-Engineered Building manufacturing and supply nationwide, known for our unwavering dedication to superior quality, prompt delivery, and ultimate customer satisfaction.

At Frame Tech, we thrive on tackling innovative design and construction challenges, finding solutions that push the boundaries of what's possible. Our distinctive approach and adaptive thinking allow us to deliver projects of exceptional quality within significantly reduced timeframes.

THE FUTURE IS STEEL

Frame Tech's expertise meets steel to create structures that redefine possibilities.

OUR SERVICES

Pre-Engineered Buildings (PEB)

These precision-crafted structures are designed to suit unique requirements, delivering robustness, flexibility, and accelerated construction times.

Multi Stored Steel Building

Combining strength and elegance, these structures are designed for vertical growth, offering unmatched durability and efficient space utilization

Space Framed Roofing

Crafted with meticulous precision, these intricate structures combine artistic design with engineering excellence to create awe-inspiring roofing solutions.

Ornamental Steel Works

Our craftsmen blend creativity and skill to design and fabricate ornate steel elements that add a touch of sophistication and uniqueness to the projects.

Prefabricated steel structures

Engineered for durability and speed, these structures are pre-manufactured off-site, ensuring faster assembly, reduced costs, and exceptional quality

Conventional Steel Buildings

Engineered for durability and speed, these structures are pre-manufactured off-site, ensuring faster assembly, reduced costs, and exceptional quality.

VISION

To be the undisputed leader in the steel construction industry, setting the standard for excellence, innovation, and sustainability.

MISSION

Our mission is to provide unparalleled expertise in steel construction, delivering exceptional solutions that surpass client expectations. With a dedicated team and a client-centric approach, we aim to shape a world where steel structures stand as symbols of strength, innovation, and the best customer service.

CORE FEATURES

THE FUTURE IS STEEL

At Frame Tech, our commitment to excellence shines through in every detail of our operations. With a legacy of innovation and a passion for precision, our unique features set us apart in the world of steel construction.

- ✓ Expertise in Design and Engineering
- ✓ Cutting-Edge Fabrication
- ✓ Efficient Project Management
- ✓ Versatility in Construction
- ✓ Sustainability in Approach
- ✓ Sustainability in Approach
- ✓ Customer-Centric Approach

OUR PROCESS

DESIGN

FABRICATION

ERECTION

At Frametech, we take pride in our streamlined and efficient process for bringing each project to life. From the initial design phase through to fabrication and erection, we ensure that every step is meticulously executed to meet the client's needs and aspirations. We perfectly guide our clients through each step in the journey of turning their dreams into reality.

1

DESIGN

Our architects and engineers design innovative structures that align with your needs and aspirations.

FABRICATION

We utilize state-of-the-art technology to craft each component with precision, ensuring a perfect fit during assembly.

2

ERECTION

Our skilled construction team employs a streamlined process to efficiently erect the steel structure, prioritizing safety and long-term durability.

3

WHY FRAMETECH?

EXPERTS IN STEEL DESIGN,
FABRICATION AND CONTRACTING

ADVANCED TECHNOLOGY

We embrace modern technology to ensure precision and efficiency

DESIGN EXPERTISE

We transform ideas into structural masterpieces with creativity & integrity.

CLIENT-CENTRIC APPROACH

We collaborate closely with every client ensuring customer satisfaction.

SUSTAINABILITY FOCUS

Committed to sustainable building practices by utilizing eco-friendly materials.

EXPERIENCED TEAM

Highly skilled professionals ensure the best quality in every project.

TIMELY PROJECT DELIVERY

Our structured project management ensures all projects are delivered on time.

EXPERTISE OVER DECADES

INNOVATION, PRECISION, AND
SUSTAINABILITY

At Frame Tech, we continuously enhance our skills to deliver excellence in every project, ensuring that each project exceeds our clients' expectations.

QUALITY ASSURANCE

CUSTOMER SATISFACTION

PROJECT MANAGEMENT

LEADERSHIP TEAM

Our success at Frametech is the result of a strong and dedicated leadership team, committed to the company's vision and values. Each member brings a wealth of experience and expertise, ensuring that Frametech remains at the forefront of the steel construction industry.
